

THE DEWEY ELECTRONICS CORPORATION

27 MULLER ROAD, OAKLAND, NEW JERSEY 07436 • TEL: (201) 337-4700 • FAX: (201) 337-3976

To Our Valued Partners and Vendors:

February 19, 2013

Dewey Electronics, a defense electronics company (OTCBB: DEWY) founded in 1955, is pleased to announce the purchase of certain assets, intellectual property, and the exclusive rights to manufacture various power generation and other product lines of Goodman Ball Incorporated (GBI).

Please make note that this is an asset purchase, and any previous business issues will need to be resolved by GBI. In moving forward, we anticipate utilizing the existing GBI supply chain, and we would certainly like to continue to work with all of GBI's vendors in order to maintain the consistency and quality that our customers have come to know and expect.

As President and C.E.O. of Dewey Electronics, I can assure you that we have outstanding credit and will treat our new vendors in the same excellent manner we do our current vendors. We realize that a good supply chain is critical to our future successes, and you should feel secure in dealing with Dewey as a new customer.

Dewey is relocating the purchased GBI operations for the affected product lines immediately to our Oakland, NJ facilities. I would encourage you to contact Edward Proskey, Senior Vice President, or myself directly if there are any special terms or questions about this purchase that you would like to discuss. Thank you for your attention, and I look forward to a long and mutually beneficial relationship.

John Dewey, President and C.E.O.
